

BACKSIDE OF CROWN KING

This long 4.0-rated trail begins near Lake Pleasant and ends at Mayer, but it is possible to get to the I-17 from Cleator. Suggest 33-inch tires minimum and skid plates which will be needed near the end of the trail at Crown King. After that it's good gravel road getting home. As always, if you're planning this trip, get the GPX file from your webmaster and use it with one of the recommended apps on phone or tablet.
